*

We can always apply these measurements on the standard measures. In cases of made to measure it can happen the measurements differ from these ones. Because these are handcrafted boots we always have a 0.5 cm error.

The measurements can differ by 0.5 cm less or more. This depends on the boot being a half MTM or the type of leather chosen for the boots and because of the boots being handmade.

Measurements shown in this table are the minimum measurements of the ankle, the ankle can't be made smaller than these measurements.

Boots with Zipper in the back of the boot without elastic on the shaft. (Olbia01&02&03/Orlando01&02)
